

SURE-GRO is a natural source of nutrients in a readily available and balanced formulation for plants.

IN HARMONY WITH NATURE

The readily available components in **SURE-GRO** and their breakdown products will stimulate vigorous plant growth, beneficial micro-organisms as well as new root development.

BENEFITS

Registered under Act 36 of 1947

Nutrition – Sure-Gro serves as a perfectly balanced nutrition as it consist of all the macro and micro elements in the preferred ratio, thus being a great solution to any deficiency of nutrients.

Chelation – organic acids in Sure-Gro are effective natural chelating agents that can improve the uptake of fertilizers. Natural chelating agents can facilitate extended nutrient assimilation by crop roots and can enhance the availability of plant nutrients under soil conditions where the nutrients would otherwise have become locked up in the soil and remained unavailable for crop root assimilation.

Enhanced quality – Sure-Gro can result in an improvement of the quality and shelf-life of fruit and vegetables.

Promotes the ripening and colouring of fruit

Soil reconditioning – organic acids in Sure-Gro can modify the water repelling surface areas of hydrophobic soils and can loosen soil compaction layers, resulting in improved water penetration, better soil aeration and improved root penetration.

PACKAGING

5 L, 25 L, 1000 L
Product Code: SGR01

APPLICATION RATES

FOLIAR SPRAY:

Vegetables & Leafy Greens

Apply as a 1% spray solution (dissolve 1 L Sure-Gro in 100 L of water) at an application rate of up to 10 Litre Sure-Gro per ha (Up to 1000 litre/ha of a 1% solution) as a nutrient source or 500 mL/ha as a chelating agent. Apply at flowering, then repeat fortnightly. For Leafy greens: apply at 5th leaf, repeat in 2 weeks.

Orchards & Vineyards

Application rates as above. Apply at flowering, fruit set and once during fruit-fill or as required.

Ornamentals & Turf

Application rates as above. Apply every 2 weeks or as required.

Broad acre Crops

300 mL – 1 L/ha Sure-Gro in 60 – 100 L water, depending on canopy closure. Do not exceed a concentration of 1 L Sure-Gro per 100 L water. Apply once or twice prior to flowering.

Pasture

300 mL – 1 L/ha Sure-Gro in 60 – 100 L water. Do not exceed a concentration of 1 L Sure-Gro per 100 L water. Apply as required.

Spot-Spraying

Dilute 50 mL Sure-Gro per 10 L water. Apply 200ml to 400ml solution per square meter.

FERTIGATION:

10 L/ha as an energy source or 2 L/ha as a chelating agent.

HOME GARDEN APPLICATION:

Dilute 15 mL Sure-Gro in a 9 L watering can and apply the diluted mix at a rate of 1 litre per square metre. Apply fortnightly or as required.

TYPICAL ANALYSIS W/V

Total Nitrogen	70g/kg
Total Phosphate	2.4g/kg
Total Potassium	14g/kg
Total Calcium	7g/kg
Total Magnesium	1.8g/kg
Total Zink	61mg/kg
Total Copper	6mg/kg
Total Ferrous	117mg/kg
Total Boron	27mg/kg
Total Manganese	22mg/kg
Total Molybdate	43mg/kg
SG	1.12
pH	3.9
Appearance	Brown Liquid

INSTRUCTIONS

Shake or stir well before use. Where higher water rates are required for good foliar coverage, do not exceed maximum product rate per hectare. Sensitive foliage or plants should be test sprayed prior to full scale application. Frequencies are a guideline only and can be adjusted according to farm practices and/or in conjunction with crop monitoring. Ensure suitable spray conditions (e.g. temperature, humidity, wind speed), prior to foliar application. Compatibility and/or performance cannot be guaranteed when combined with other products. Jar test for compatibility and spray test on small area before wide-spread use.

STORAGE & HANDLING

Store in a cool dry area out of direct sunlight. This product has been tested to store safely down to 5°C. Crystallisation or sedimentation may occur below 5°C. Do not pre-mix or store in diluted form. Seal lid/cap immediately after use to prevent contamination of airborne microbes.

Disclaimer: Any recommendations provided by 'Wolseley Liquids CC' or its Distributors are advice only. As no control can be exercised over storage, handling, mixing, application or use, or weather, plant or soil conditions before, during or after application (all of which may affect the performance of our program), no responsibility for, or liability for any failure in performance, losses, damages, or injuries (consequential or otherwise), arising from such storage, mixing, application, or use will be accepted under any circumstances whatsoever. The Buyer assumes all responsibility for the use of any 'Wolseley Liquids CC' products.
